

Specifications

SDS Power Port 10

Specifications SDS Power Port 10

You can charge your SDS tags within 2 hours with this USB charger. At the same time you can provide 10 wearables with a new charge of power. The Anker multi protection system offers full protection for you and the Social Distancing Sensors. Supplied with 1.5 meter detachable power cable.

Using your SDS Power Port 10

1. Plug it in.
1. Turn it in.
2. Charge your SDS tags.

For the fastest and safest charge, use an Anker® cable, your device's original cable or a certified one (such as MFi).

7. The power supply is not intended to be repaired by service personnel in case of failure or component defect (the product can be disposed of).
8. The socket-outlet shall be installed near the equipment and shall be easily accessible.

FCC Statement

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Warning: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- (1) Reorient or relocate the receiving antenna
- (2) Increase the separation between the equipment and receiver.
- (3) Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- (4) Consult the dealer or an experienced radio / TV technician for help.

The following importer is the responsible party.

Company Name: Fantasia Trading LLC

Address: 5350 Ontario Mills Pkwy, Suite 100, Ontario, CA 91764

Telephone: +1 800 988 7973

This device complies with Industry Canada license-ICES-003. Operation is subject to the following two conditions: (1) This device may not cause interference, and (2) This device must accept any interference, including interference that may cause undesired operation of the device.

Declaration of Conformity

Hereby, Anker Innovations Limited declares that the product type A2124 is in compliance with Directives 2014/35/EU & 2014/30 / EU & 2011/65/EU & 2009/125/EC.
